

White Gold

Aquilegia viridiflora

This essence carries the power of the healing energies of the mysterious and mythical "**White Gold**", which is a major theme in the Chronicles of Thomas Covenant, the "Unbeliever", as told in the novels by Stephen Donaldson.

Because, in "The Land", where Covenant has been magically transported to, white gold does not exist, other than in the imagination of humans, but, there exists the paradox of Covenant having a ring of "white gold" on his finger (his wedding ring), this gives him magical powers.

But, he has no idea of how to use those powers, and this is the major theme of the stories, Covenant's search for knowledge of how to use the powers of White Gold.

The 25-year search for the powers that these essences carry is a parallel story to this, a long and arduous search, which has now been fulfilled, with the manifestation of these Quantum Healing Essences.

Affirmation: **"I call upon the power of White Gold, the wild, uncontrollable healer, to heal my soul."**
