

Kawakawa and Large Rock

ZPF Linkage Essence

Master Linkage Essence.

This essence of the native New Zealand healing plant, KawaKawa, growing all over a huge stone in the New Zealand bush, is the “Master Linkage Essence”, that holds all the energies together in a blend of these Zero Point Field essences.

This essence is the latest, “zpf version”, of a “linkage essence”. It provides energies to orchestrate, fine-tune and harmonize all of the energies in all of the essences in a Zero-Point-Field essence blend.

It helps with the overall balance of the blend as a whole, fine-tuning the blend into a whole-istic tightly-integrated whole rather than just a mixture of individual essences.

Affirmation: “I now integrate all of these healing energies within me, and come to the realization that I am not separate from them, they are a part of me, and I am a part of them.”
